A steel detailer is a person who produces detailed drawings for steel fabricators and steel erectors. The detailer prepares detailed plans, drawings and other documents for the manufacture and erection of steel members (columns, beams, braces, trusses, stairs, handrails, joists, metal decking, etc.) used in the construction of buildings, bridges, industrial plants, and nonbuilding structures.

WBDG is a gateway to up-to-date information on integrated 'whole building' design techniques and technologies. The goal of 'Whole Building' Design is to create a successful high-performance building by applying an integrated design and team approach to the project during the planning and programming phases.

Our Hardy Frame line is the only complete line of lateral force resisting products that meet all needs of the light-frame wood construction industry; from single family homes to multi-story, multifamily complexes.. Solve better architecturally. Design with new possibilities. Utilize a more economical solution.
