Magnetic Recording Fundamentals 6 7.3.2 Read Process During the read process, the magnetisation on the recording surface is detected by the head and some of the magnetic flux is diverted through the coil, producing an induced voltage e_o

Chapter 7. Magnetic Recording Fundamentals

Telecommunication is the transmission of signs, signals, messages, words, writings, images and sounds or information of any nature by wire, radio, optical or electromagnetic systems. Telecommunication occurs when the exchange of information between communication participants includes the use of technology. It is transmitted either electrically over physical media, such as cables, or via ...

Telecommunication - Wikipedia

A computer network, or data network, is a digital telecommunications network which allows nodes to share resources. In computer networks, computing devices exchange data with each other using connections between nodes. These data links are established over cable media such as wires or optic cables, or wireless media such as WiFi. Network computer devices that originate, route and terminate the ...
