Chinese, also known as Sinitic, is a branch of the Sino-Tibetan language family consisting of hundreds of local language varieties, many of which are not mutually intelligible. The differences are similar to those within the Romance languages, with variation particularly strong in the more mountainous southeast. These varieties, often called "dialects", have been classified into seven to ten ...

One of the most consistent things I was warned about many years ago when my husband and I decided to

both speak German with our swaddled babe in arms was language delay. Everyone told me not to worry if my son didn't start speaking until later, as bilingual children are known to start speaking later and to be a bit linguistically confused at first.
